Wines:

Alpha Zeta Corvina 2011

Alpha Zeta Pinot Grigio 2011

Alpha Zeta started in 1999 when Liberty Wines set out to produce a range of modern, fruit driven wines from the hills outside Verona. Under the direction of leading New Zealand winemaker, Matt Thomson, the aim was to work with growers to obtain ripe grapes (by reducing yields and picking later) and then preserve these flavours in the finished wines. By paying grape producers by the acreage rather than yield Matt incentivises quality rather than quantity of grape production and sustainable viticulture practices.

Café Sunlight is part of a social enterprise network that uses business to help change lives for the better. We support training, volunteering and work placements for people who otherwise might find it hard to get into work. We use fair-trade products and source food locally where we can from suppliers we know and trust. Café Sunlight is a trading subsidiary of Sunlight Development Trust, a registered charity which exists to tackle health and social inequalities in the Medway Towns. Profits are reinvested in community projects across Medway.
